

LEAFY

the PET LEAF

MAKE YOUR OWN PET LEAF!

Draw faces on each of these leaves and name them.

Can you unjumble
these words to
reveal the names
of different trees?

SPRAT'S VERY IMPORTANT LEAF-AND-TREE NEWS

- Some trees keep their leaves all the year round.
 - Some trees' leaves fall off in autumn. The leaves go brown, red or yellow or old and CRUNCHY!
 - Some trees grow up to 100 metres tall. Which is VERY tall.
 - Some trees live for thousands of years. So they can say "I'm older than you!" to my bossy big sister.
 - Leaves sunbathe and turn the energy of the sun into food for the trees. I'm going to make Leafy some sunglasses.
- I LOVE MY LEAFY!
